PBL SEM - I PROJECT ABSTRACT

Department	FED	
Subject	PSPJ (Problem Solving Using Java)	
Academic Year	I-I Semester (2026-27)	
Faculty Name	Dr. K. Sreeram Murthy	
Student Name	Varanasi Pranavi	Kunku Abhinaya
Roll Number	2620080126	2620030366
Contact Number	8790026203	7207263385
Branch	AI&DS-Section 15	CSE-Section 15
Course Outcome		

Project Area	**Project Title**	**Project Number**
Health and care	Clinic Appointment and Prescription Manager	**8**

Keywords: **Clinic Management, Appointment System, Prescription Manager, Java, Patient Records, Doctor Schedule, Prescription Generation, Appointment Booking, Java Programming, File Handling, User-Friendly System, Automation, Classes, Objects, Methods, Arrays, Loops, Conditional Statements.**

Project Abstract/Statement: The Clinic Appointment and Prescription Manager is a Java-based Healthcare Management System designed to make clinic operations faster, easier, and more organized. The system allows clinic staff to manage doctor schedules, book and update patient appointments, and generate digital prescriptions for proper treatment records. It also provides an efficient patient record system that automatically updates medical history and prescription details, reducing manual errors and saving time. The project uses basic concepts of Java Programming such as classes, objects, methods, arrays, loops, conditional statements, and File Handling to provide effective appointment and prescription management. With its simple and User-Friendly System design, the project improves communication between reception, doctors, and patients while supporting Automation of routine clinic activities. The main aim of the project is to provide a simple, accurate, and efficient solution for Clinic Management while giving students practical knowledge of Java Programming and its application in solving real-life healthcare problems.
